Self-Employed Income and Expense Tracker

JAMAICA

Write down every payment in and out

Income log · Expense log · Year-end totals

Tax year: _____

How to use this tracker

Write down each payment in and out on the day it happens. At the end of the year your totals are ready for your S04, whether you file it yourself or hand it to someone who files for you. You can type into it on a computer, or print it and write in it.

1. **Monthly income totals** (page 3)
   Write each month's total, from your daily log, receipt book or bank statement.
2. **Paid for the client** (on the monthly totals page)
   Money a client gave you to pay a fee or buy something for them goes in its own column. It isn't your income.
3. **Expense summary** (page 5)
   Every three months, add up each category, using the letters on page 4.
4. **Year-end totals** (page 6)
   Your final figures, with a quick check before you file.
5. **Daily income log** (pages 7–8, optional)
   Use it if you don't already keep daily records. Print more as you need.
6. **Expense log** (page 9, optional)
   Write each business cost and its category letter. Print more as you need.

Need more room?

Print extra copies of any log page. Write “page 2” at the top, and add both pages together for the month total.

What counts as a business expense?

Only costs spent to earn your business income. Personal spending, equipment that lasts more than a year, money you take out for yourself and donations aren't everyday expenses. If you're unsure, check with TAJ.

Using our Self-Employed Tax Record Planner? Copy your month totals into Step 3 and your category totals into Step 4.

MONEY IN

Monthly income totals

Write each month's total, from your daily log, receipt book or bank statement.

Month	You earned ($)	Paid for client ($)
January		
February		
March		
April		
May		
June		
July		
August		
September		
October		
November		
December		
Year total		

Not your income. Keep it for your records.

MONEY OUT

Expense categories

When you write an expense in the log, add the letter of the category it fits best. Not every category will apply to you.

- **A** Rent for your business place
- **B** Wages you paid to workers
- **C** NIS, NHT, Education Tax and HEART for workers
- **D** Vehicle costs: gas, repairs, insurance, licence
- **E** Bank charges and card fees
- **F** Interest on business loans
- **G** Light, water, phone and internet
- **H** Lawyer fees
- **I** Accountant or bookkeeper fees
- **J** Other professional fees
- **K** Trade licence
- **L** Meals or treats for clients
- **M** Travel for business (trips)
- **N** Meals or treats for your workers
- **O** Taxi, bus, courier and delivery
- **P** Advertising, flyers, boosted posts
- **Q** Commission you paid to others
- **R** Money owed to you that you will never collect
- **S** Security
- **T** Management fees
- **U** Business insurance
- **V** Auditing fees
- **W** Licence, franchise or royalty fees
- **X** Repairs and upkeep
- **Y** Training and courses for your business
- **Z** Anything else: stationery, supplies, software, postage

Not sure which letter? Use Z (anything else) and write what it was. Keep the receipt.

MONEY OUT

Expense summary

Every three months, add up each category from the expense log. Q1 is Jan to Mar, Q2 Apr to Jun, Q3 Jul to Sep, Q4 Oct to Dec.

Category	Q1	Q2	Q3	Q4	Year

Z Anything else: supplies, software					
Total expenses					

Year-end totals

Copy your final figures here. These are the totals you, or whoever files for you, will need.

Total you earned (page 3)	
Total paid for clients (page 3) — not income	
Total business expenses (page 5)	
What's left after expenses (earned less expenses)	

Before you file or hand it over

- ☐ Every month's income is written in and totalled
- ☐ Money paid for clients is kept out of your income
- ☐ Every expense has a category letter and a receipt
- ☐ No personal spending is included
- ☐ Payslips or P24 are ready, if you also have a job
- ☐ Receipts are kept together, by month

Every payment.
Every month.
Ready for March.

This tracker helps you write down every payment in and out as it happens, so your totals are ready when it's time to file.

Next step: the Self-Employed Tax Record Planner,
to gather your papers and totals, ready to file.
